

Big Taxi

The beautiful Cotswolds, the city of Bristol, this is where cabbie Wilton drives around with his fares, rarely taking the direct route. Sometimes he has to stop to take a little nap when narcolepsy strikes. That's the day job. He makes the real money moonlighting as private detective, the cab his marketing platform. So when the mysterious Chasby asks him to find out who killed his wife, Wilton is only too happy to oblige, until he finds dangerous organisations are involved. Can Wilton find out who killed Muriel before he is put in the frame for the murder? Narcolepsy poses problems for Wilton's driving and his investigation: he was present at the crime but he can't remember what happened. As he tries to solve the case he needs to examine his own unconscious. Behind the facade of a rural scene lies a mystery involving a large corporation and mercenary soldiers. Wilton begins to question whether he is working for the good guys. He no longer knows whose side he should be on. The ethic of the private investigator is to do a good job for his client. So who is the guilty party? Is it Wilton himself? How can he know? As he pursues his investigation, like everyone else, he is still searching for love. If he can escape from the dangerous situation he finds himself in, it still seems unlikely that a man like Wilton can ever find a woman to love.
