

The Cloisters of Canterbury

In 1948, an invitation to the White House by President Harry Truman was truly an honor for young Rob Royal. As a loyal and dedicated Army soldier, he could hardly refuse the invitation to join a covert group that didn't exist: a group of special citizens that operated outside of government and the military, a Group not subject to the leaks and corruption so prevalent within government circles. The invitation led to the extensive training of a secret courier, known only to the president himself and a handful of leaders in Congress. However, they never said anything about assassination attempts on his life, discovering brutal Nazi war criminals hiding in the US, an international conspiracy, or why a beautiful woman was murdered in England. But somehow, all these events are connected, and Rob Royal is determined to solve the mystery. This is Rob Royal's story. These are his words, just as it really happened.
