

Love and Other Possibilities

Embarking on a journey that spans Sri Lanka, Wales, Spain, India, Morocco, and the lives and minds of complex, charming characters, these short stories offer a fresh view on contemporary life in Wales. The stylized prose creates both a sense of familiarity in the exotic and a sense of exotic in the familiar, which forms a tension between fantasy and reality. Seasoned jet-setters and armchair travelers alike will find this a thoughtful, imaginative anthology.
