

Santa v. Scrooge

It is a little known historical fact that Santa Claus is a completely American invention, elaborated on in the poem by Clement Moore from a casual reference by Washington Irving, the historian of early New York Dutch history, and then brought to life by advertising illustrations of the Coca Cola company. Even less known is the fact that Christmas, as an American holiday, was illegal in colonial times as a result of Puritan laws, Oklahoma being the last state to legalize it in 1890. What really surprised the writer was that no one had ever written the story of the origin of Santa Claus. Every library and reference work imaginable was checked, and it just doesn't exist. Therefore, it had to be written. This is the story of his origin, of how Nicholas Claus, a half-breed elf orphaned at birth, overcame his cruel childhood, first in the New York City workhouse, and then as an apprentice to the evil Ebenezer Scrooge. With the aid of Washington Irving, Nicholas discovered the elves' secret valley in the Kaatskill Mountains, which had been visited only once before, by the mysterious Rip Van Winkle. Chronicled here is how he met the Ice Maiden, the future Mrs. Claus, and how he was helped by the seven elves, including not only the one that was to become his best friend, Bernstein, but also by Weinstein, Bierstein, Epstein, Feldstein, Hammerstein, and Einstein. When Bernstein first meets him, Claus has been totally corrupted by Scrooge, who is determined to find the source of the elves' secret gold. Bernstein not only helps turn Nicholas from bad to good, but he then proceeds to teach him what he needs to do to ultimately defeat the evil Ebenezer Scrooge. He also learns that he is the product of the union of Rip Van Winkle, and the elf princess, making him half-elf on his mother's side, and also the grandson of the King of the Elves. You will discover why Klaus hitched up that famous team of reindeer and delivered

presents to the children of New York City, and why he continues to do that down to this very day. Also included is a moral message, which should not be lost on either adult or child, which teaches a very valuable lesson about drug use. Most importantly, this is a perennial, a film which can be released every seven years, in perpetuity, to the endless profit of producer, writer, and studio. This is a screenplay.
